## 01 PROFILE

I am a curious programmer eager to learn the latest technologies in the web sector. Although the bulk of my experience is as a **full-stack developer**, I also have experience setting up continuous integration systems (CI/CD), and doing E2E testing. I am used to work with agile methodologies and version control systems. I am also an enthusiast of the crypto world and everything related to it.

## 02 EMPLOYMENT HISTORY

2019 — Present

Alcudia

### Web developer at Geinfor

Participating from scratch in the design of a new business management system (ERP) with the latest technologies in the industry. I have worked as full-stack developer, setting up the E2E and CI/CD systems, as well as training new programmers. This is the place where I have developed the most professionally.

Apr 2018 — Jun 2018

Manchester

### Android developer at Creative City Manchester

I attended the FCT's with the FCTEuropa scholarship in Manchester (UK). During this I was in charge of designing and creating an Android application from scratch with the help of the CEO adapting to the needs presented by the company.

## 03 EDUCATION

2018 — 2019

### IES Sant Vicent Ferrer

Degree in multiplatform applications development

2017 — 2018

### IES Serpis

Degree in web development

## 04 SKILLS
